

AIR 1 Radio provides a service like no other radio station, in that we can get programming we like and that children can listen to without fear that the songs will be inappropriate or the dj's will use foul language - something I really appreciate.

There is not a "replacement" station, so please do not replace with a LPFM.

AIR 1 also is able to have interviews and a more personal touch, discuss their mission trips - almost like having my local church on the air - we feel like we know the AIR 1 people and the bands they interview!

This is very important to me - someone who teaches Sunday School and has children around most of the time!
